FYI: Mr. Teo Saenz sent me the below e-mail and attachment. It is a record of communication between Mr. Saenz and Mr. Martin Utley, former URI field operator and former "Texas Department of Health" (TDH) inspector. As a TDH officer, Mr. Utley was of great help in securing water quality data for the Garcia Hill wells prior to the Branch sending a warning letter to the Garcia Hill residents in 2004.

I thought you might wish to see this information before our conference call with Mr. Saenz and Ms. Cumberland later on today. Please let me know if you have questions on this. Thanks,

JETorres

Subject: Kingsville water well

---

Mr. torres,

I spoke to Martin Utley and he did not know the water well number for the Kingsville water well that caused a drop in water levels in the Kingsville dome. I will try to get more information for the City of Kingsville and I will meet with him this Sunday.  
thanks
